Bank Deposits Are Now Delivered Electronically

On November 4, 2013, the Employment Development Department (EDD) implemented a new software that allows for paper checks to be electronically deposited directly with the banks. This upgrade utilizes the Image Cash Letter (ICL) component from the Check Clearing for the 21st Century Act (Check 21). With the implementation of the ICL upgrade, the EDD is now in conformity with the Check 21 law.

Other state agencies, including the Department of Child Support Services, Franchise Tax Board, Board of Equalization, and Department of Motor Vehicles have also recently implemented ICL software.

File your Report of New Employee(s) (DE 34)

It's a great opportunity to register and take advantage of the Employment Development Department’s e-Services for Business to electronically submit your Report of New Employee(s) (DE 34).

The e-Services for Business is an easy and secure option for you to submit your DE 34 to report new hires or rehired employees within 20 days of the employee’s start-of-work-date.

As a reminder, effective January 1, 2013, legislation changed the definition of a rehire. An individual is now considered a rehire if the employer/employee relationship ended and the individual returning to work has been separated from that same employer for at least 60 consecutive days.

Please remember, your timely reporting of new and rehired employees greatly benefits the children whose parents are delinquent in their child support obligations. Your new hire information is used by state and county agencies to assist in locating these parents. In addition, your timely reporting may also prevent erroneous benefit payments.

For more information about the California New Hire Reporting Program, go to www.edd.ca.gov/payroll_taxes/new_hire_reporting.htm.
